HOT BRIQUETTED IRON ASSOCIATION

Revised June 2009

Hot Briquetted Iron Association

HBI A

Hot Briquetted Iron Association (HBIA)

The term "HBI Industry" refers to the business of operating a plant or plants to produce Hot Briquetted Iron (HBI), a form of Direct Reduced Iron (DRI) that has been compacted at a temperature greater than 650 °C at time of compaction and has a density greater than 5000 kilograms per cubic meter (kg/m³), and the supply of services, technology, and equipment associated with the production, handling (including sales), and shipping of HBI.
